8009 Zyklop Pocket Set 3, 27 pieces

Zyklop Pocket

EAN:	4013288227560	**Size:**	205x150x55 mm
Part number:	05004284001	**Weight:**	1175 g
Article number:	8009 Zyklop Pocket Set 3	**Country of origin:**	CZ
		Customs tariff number:	82079030

- 27-piece Zyklop Pocket set with bits, sockets, universal holder and extension
- Compact Zyklop ratchet with integrated bit magazine
- The magnetic direct mounting simultaneously turns the 3/8" ratchet into a bit ratchet screwdriver with 1/4" bit mounting
- Freely pivoting ratchet head with 5 predefined locking positions
- Fine tooth reversible ratchet (72 teeth) for a low return angle of only 5°
- Captive and freely swivelling bit magazine for easy removal and secure storage of the bits
- Universal holder with stainless steel sleeve and strong permanent magnet, can be used as extension
- Space-saving and safe storage in a textile box, which can also be docked onto the Wera 2go system

Comprehensive and space-saving ratchet/screwdriver combination. Compact Zyklop ratchet with bit magazine for the pocket. Magnetic direct mounting for ¼" bits and 3/8" sockets. Rapid tool change thanks to the non-locking mounting. As the head is lockable at 0°, 15° and 90°, the tool can be used as a ratchet and as a ratchet screwdriver. The fine toothing with 72 teeth allows for a low return angle of 5°. Wide range of applications thanks to 12 bits integrated in the handle. The robust ratchet mechanism allows for ample torque. Perfect combination of a Zyklop ratchet with a 12-piece screwdriver set. The 75 mm long universal holder for 1/4" bits can be used as an extension. Including sockets in the commonest dimensions. In a textile box, which can be docked onto the Wera 2go system.

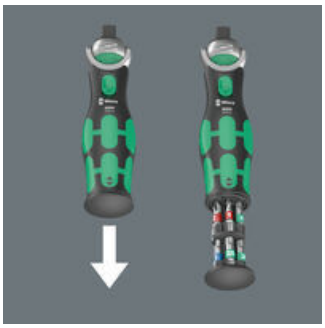
Compact Zyklop ratchet with integrated bit magazine

Combination tool mounting

The magnetic direct mounting is suitable for 3/8" sockets as well as ¼" bits without the need for an adapter.

With integrated bit magazine



A captive, freely swivelling bit magazine for 12 bits (1/4", 25 mm length) is integrated in the handle of the compact Zyklop ratchet.

Swiveling bit magazine

The swiveling bit magazine allows for the bits to be removed easily in almost any situation and cannot be lost. The bits are safely stored.

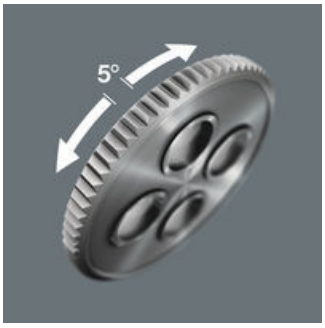
Freely pivoting ratchet head

The ratchet head pivots freely and can be locked into any defined position by using the slide switch that is positioned on either side. It is even possible to work in very confined and difficult-to-access areas with enhanced hand clearance. The predefined locking at 0°, 15° and 90°, both to the right and left, ensure safe working without any slipping of the ratchet head.

Locking the ratchet head

Thanks to the sliding switch on both sides, the ratchet head can be locked at the pre-defined positions 0° as well as 15° and 90° to the right and left.

Small return angle



The fine toothing with 72 teeth allows for a low return angle of only 5° for working in constricted screwdriving situations.

Simple direction change

The Zyklop Pocket ratchet can be quickly and easily reversed for clockwise/anti-clockwise rotation in any position using the knurl.
